

The Level Ladder: your results

What you already know, what you don't know yet, and when we will learn it

Remember: this ladder goes all the way up to what a Spanish 6º de Primaria student is expected to know. Most of it we haven't taught yet — every mistake here is just a map of where we're going.

5

is the real target rung

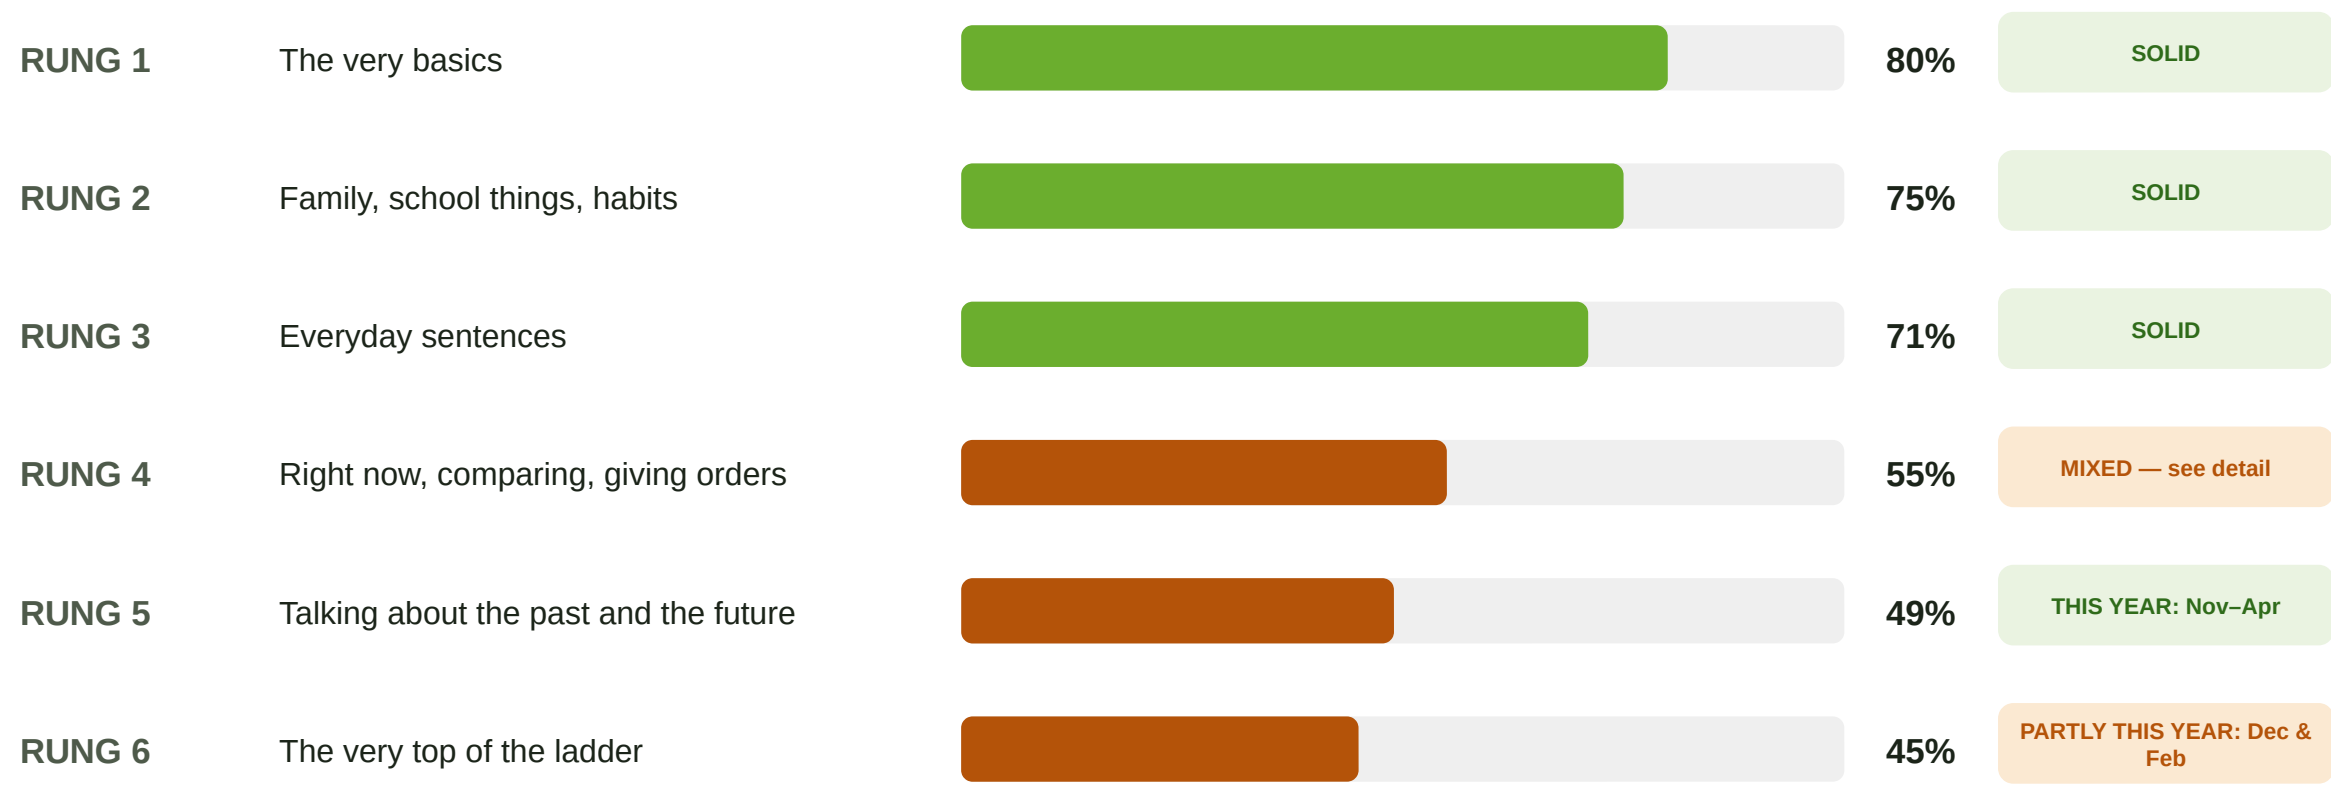

Five questions per rung, one CEFR level each. Rungs 1 to 4 are what this group should already know by now. Rung 5 is the real benchmark — what every 6º de Primaria student in Spain is expected to know. Rung 6 goes further still.

All 11 students sat the test on 9 September 2026, at the very start of the year.

TODAY

1

This week

Present perfect (“have you ever...”) and present continuous (“right now”) are the two everybody missed. Quick, repeated drilling fixes both fast — neither needs a whole new unit.

2

Each month

When we reach a unit, we look back at its Level Ladder questions together. Watch them get easier.

3

June

We climb the ladder again and compare — same format, same rungs.
