

The Level Ladder, key

WHAT THIS IS, AND ONE THING THAT IS DIFFERENT HERE

The same 36-item diagnostic the Friday B2 group took on 11 Sep: six parts, one per unit of New Close-up B2 Split A, four grammar and two vocabulary items each. **This group has already done Unit 1 pp. 5 to 9**, so Part 1 is partly taught and its score will run high. Read Parts 2 to 6 as the real diagnosis. Martina, Víctor and Isabella did not do the First Day booklet, so this is their only baseline.

The four discriminators, tick if correct

ITEM	MARTINA	VÍCTOR	ISABELLA
9 and 10 used to against be used to			
14 and 15 past perfect simple against continuous			
27 perfect modal			
32 stop + infinitive			

A high total with all four missed means a B1 student with good exam instincts, not a B2 student. That is the distinction this sheet exists to make.

Timing, 60-minute class. 30 minutes for the 36 questions, 10 for the message only if someone finishes early. Do not mark it in front of them. Use the last 20 minutes for the Unit 1 lesson you had planned, and bring the results back on Thursday 24 Sep.

Reading a single unit column

SCORE	WHAT IT MEANS	WHAT TO DO
5 or 6	The grammar is already there.	Move fast through the grammar pages; spend the time on Use of English and Speaking.
3 or 4	Partly there, usually the form but not the choice between two structures.	Teach normally, plus one contrast drill on the exact pair confused.
0 to 2	New. Assume none of it.	Budget an extra session. Start from meaning, not the rule.

Reading the total

/ 36	WHERE THE STUDENT IS
30 to 36	Already working at B2. Plan extension and move to the harder FCE papers early.
22 to 29	Solid B2 entry. The book is pitched correctly.
14 to 21	Strong B1 moving into B2, normal at this point of the year. The grammar will feel heavy until Christmas.
0 to 13	Below the book's entry point. Check for random guessing first, then plan B1 consolidation alongside the units.

After marking, answer these three

Which unit scored lowest across the group?	
Where does Isabella sit against the other two? Is the group still one level?	
Who is furthest behind, and what is the first thing to fix?	

Marking the extra message

Do not give it a mark. Read it for three things only: tenses beyond the present, linking beyond *and* and *but*, and a register that suits a note to a teacher. For Martina, check this closely: her spoken English is ahead of her written accuracy.

FOUR ITEMS CHANGED FROM THE FRIDAY VERSION

Each of these had a second correct answer on 11 Sep, so one distractor was replaced. The answers and the grammar tested are the same, so the two groups can still be compared.
21 *will drop* → *will have dropped* · **26** *must* → *mustn't* · **27** *could* → *can* · **31** *to wait* → *to waiting*.
For Friday's papers: also accept *will drop* (21), *must* (26), *could* (27) and *to wait* (31).
